

Tinder Skills Test 1

Instructions

Create a clone of tinder made for **mentorship** instead of dating using whatever tech stack of your choice and host on whatever hosting service of your choice. Design with a desktop first design, but that is also responsive on mobile.

Share your repo with @codingshot on Github and email the deployed link to president@minorityprogrammers.org and shadman@minorityprogrammers.org

You have exactly 96 hours to complete this assignment.

Branding

Make sure to brand the app consistent with the minorityprogrammers.com website

- Font; Red Hat Display
- Logo: https://minorityprogrammers.com/assets/images/mp_asset_icon.svg
- Colors: Gradient (Yellow -> Pink -> Purple)
- YELLOW #FFC700
- PINK #FF00B8
- PURPLE #151371
